

§ 106-405.18. Implementation of control and eradication program.

The control and eradication of equine infectious anemia in North Carolina shall be conducted as far as available funds will permit, and in accordance with the rules and regulations made by the Board of Agriculture. The Board of Agriculture is hereby authorized to cooperate with the U.S. Department of Agriculture in the control and eradication of equine infectious anemia. (1973, c. 1198, s. 4.)
