8 and identify the preferred means of disposal of mobile homes, including
9 environmentally friendly disposal methods such as recycling. The Commission may
10 also evaluate the means by which the State and local governments can discourage or

27 In the course of its study and in making its recommendations, the
28 Commission may consider the following subjects:

- 29 (1) Methods to encourage the use of alternative energy sources, such as
30 tax incentives, alternative energy portfolio standards, system benefit
31 programs, and product offerings to retail electricity customers.
32 (2) Barriers to distribution and market entry for alternative energy
33 generators.
34 (3) Federal and State regulatory jurisdiction with respect to electric
35 utilities, including potential conflicts and ways to address those
36 conflicts.

19 better coordination of the activities of the two states on water quality and water supply
20 within the Catawba-Wateree River basin. This study may include the following topics:

21 (1) The need for and development of a memorandum of agreement
22 between North and South Carolina to ensure cooperation, coordination
23 and integrated management in addressing issues related to the basin,
24 all within the framework of currently existing programs and agencies
25 of the two states.

20 **SECTION 18.2.** The General Assembly further finds that:

- 21 (1) The National Park Service's definition of a National Heritage Area is a
22 place designated by Congress where natural, cultural, historic, and
23 scenic resources combine to form a cohesive, nationally distinctive
24 landscape arising from patterns of human activity shaped by
25 geography. These patterns make National Heritage Areas
26 representative of the national experience through the physical features
27 that remain and the traditions that have evolved in them. Continued
28 use of the National Heritage Area by people whose traditions helped to
29 shape the landscape enhances their significance.
- 30 (2) Designation by the United States Congress of the North Carolina

35 landscape. The natural, cultural, historic, and recreation resources in
36 this 23-county region combine to form a cohesive, nationally
37 distinctive landscape arising from patterns of human activity shaped by
38 geography. These patterns make the mountain region of Western North
39 Carolina representative of the national experience through the physical

9 governments within the proposed National Heritage Area are
10 interested and committed to completing the suitability and feasibility
11 study that must be completed prior to Congress's designating a
12 National Heritage Area.
- 13 (7) The National Heritage Area designation by the United States Congress
14 for the 23-county mountain region of Western North Carolina would
15 help to preserve and celebrate the uniqueness of this area and its
16 defining landscape in North Carolina and offers the potential to ensure
17 key educational and inspirational opportunities in perpetuity, without
18 compromising traditional local control over, and use of, the landscape.

19 **SECTION 18.3.** As used in this act, "23-county mountain region" means the
