- (1) Provide that the required buffer area shall not exceed twenty percent (20%) of the area of the tract, net of public road rights-of-way and any required conservation easements.
- (2) Provide that buffer zones that adjoin public roadways shall be measured from the edge of the public road right-of-way.
- (3) Provide that tracts of two acres or less, net of public road rights-of-way, that are zoned for single-family residential use are exempt from the requirements of the ordinances.
- (4) Provide that the ordinances are limited to situations where undeveloped property is planned or zoned in accordance with adopted municipal plans and zoning regulations.
- (5) Provide that a survey of individual trees is not required.

- (6) Include reasonable provisions for access onto and within the subject property.

A municipality may deny a permit or refuse to approve a site or subdivision plan for a period of two years if the owner replants the buffer area within 120 days of harvest with plant material that is consistent with buffer areas required under the municipality's ordinances.

(c) Before adopting an ordinance under this section, the governing board of the municipality shall hold a public hearing on the proposed ordinance. Notice of the public hearing shall be given in accordance with G.S. 160A-364.
