27 **SECTION 3.** G.S. 89C-17 reads as rewritten:

28 "§ 89C-17. Expirations and renewals of certificates.
29

1 Certificates for licensure of corporations and business firms that engage in the
2 practice of engineering or land surveying shall expire on the last day of the month of
3 June following their issuance or renewal and shall become invalid on that date unless
4 renewed. All other certificates for licensure shall expire on the last day of the month of
5 December next following their issuance or renewal, and shall become invalid on that
6 date unless renewed. When necessary to protect the public health, safety, or welfare, the
7 Board shall require any evidence necessary to establish the continuing competency of
8 engineers and land surveyors as a condition of renewal of licenses. When the Board is
9 satisfied as to the continuing competency of an applicant, it shall issue a renewal of the
10 certificate upon payment by the applicant of a fee fixed by the Board but not to exceed
11 seventy-five dollars (\$75.00). The secretary of the Board shall notify by mail every
12 person licensed under this Chapter of the date of expiration of the certificate, the
13 amount of the fee required for its renewal for one year, and any requirement as to
14 evidence of continued competency. The notice shall be mailed at least one month in
15 advance of the expiration date of the certificate. Renewal shall be effected at any time
16 during the month immediately following the month of expiration, by payment to the
17 secretary of the Board of a renewal fee, as determined by the Board, which shall not
18 exceed seventy-five dollars (\$75.00). Failure on the part of any ~~registrant-licensee~~ to
19 renew the certificate annually in the month immediately following the month of
20 expiration, as required above, shall deprive the ~~registrant-licensee~~ of the right to practice
21 until ~~renewal has been effected. Renewal may be effected at any time during the first 12~~
22 ~~months immediately following its invalidation by payment of the established renewal~~
23 ~~fee and a late penalty of one hundred dollars (\$100.00)-reinstatement of the license. The~~
24 license may be reinstated at any time during the first 12 months immediately following
25 the date the license became invalid by payment of a reinstatement fee of one hundred
26 dollars (\$100.00) in addition to the established renewal fee. Failure of a licensee to
27 ~~renew-reinstate the license for a period of 12 months~~during the first 12 months
28 immediately following the date the license became invalid shall require the individual,
29 prior to resuming practice in North Carolina, to submit an application on the prescribed
30 form, and to meet all other requirements for licensure as set forth in Chapter 89C. The
31 secretary of the Board is instructed to remove from the official roster of engineers and
32 land surveyors the names of all licensees who have not effected their renewal by the
33 first day of the month immediately following the renewal period. The Board may adopt
34 rules to provide for renewals in distress or hardship cases due to military service,
35 prolonged illness, or prolonged absence from the State, where the applicant for renewal
36 demonstrates to the Board that the applicant has maintained active knowledge and
37 professional status as an engineer or land surveyor, as the case may be. It shall be the
38 responsibility of each licensee to inform the Board promptly concerning change in
39 address. A licensee may request and be granted inactive status. No inactive licensee
40 may practice in this State unless otherwise exempted in this Chapter. A licensee granted
41 inactive status shall pay annual renewal fees but shall not be subject to annual
42 continuing professional competency requirements. A licensee granted inactive status
43 may return to active status by meeting all requirements of the Board, including
44 demonstration of continuing professional competency as a condition of reinstatement."
