PROJECTS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-64.31 reads as rewritten:

"§ 143-64.31. Declaration of public policy.

(a) It is the public policy of this State and all public subdivisions and Local Governmental Units thereof, except in cases of special emergency involving the health and safety of the people or their property, to announce all requirements for architectural, engineering, surveying and construction management at risk services, to select firms qualified to provide such services on the basis of demonstrated competence and qualification for the type of professional services required without regard to fee other than unit price information at this stage, and thereafter to negotiate a contract for those services at a fair and reasonable fee with the best qualified firm. If a contract cannot be negotiated with the best qualified firm, negotiations with that firm shall be terminated and initiated with the next best qualified firm. Selection of a firm under this Article shall include the use of good faith efforts by the public entity to notify minority firms of the opportunity to submit qualifications for consideration by the public entity.

(a1) A resident firm providing architectural, engineering, surveying, or construction management at risk services shall be granted a preference over a nonresident firm, in the same manner, on the same basis, and to the extent that a preference is granted in awarding contracts for these services by the other state to its resident firms over firms resident in the State of North Carolina. For purposes of this section, a resident firm is a firm that has paid unemployment taxes or income taxes in North Carolina and whose principal place of business is located in this State.

(b) Public entities that contract with a construction manager at risk under this section shall report to the Secretary of Administration the following information on all projects where a construction manager at risk is utilized:

- (3) A list of all other firms considered but not selected as the construction manager at risk and the amount of their proposed fees for services.
- (4) A report on the form of bidding utilized by the construction manager at risk on the project.

The Secretary of Administration shall adopt rules to implement the provisions of this subsection including the format and frequency of reporting."
