The Board may establish appropriate standards for each classification, such standards not to be inconsistent with the provisions of G.S. 87-42. The Board may, by rule, modify the project value limitations up to the maximum amounts set forth in this section for limited and intermediate licenses no more than once every three years based upon an increase or decrease in the project cost index for electrical projects in this State."

**SECTION 2.** G.S. 87-43.2(a) reads as rewritten:

"(a) A person, partnership, firm, or corporation shall be eligible to be licensed as an electrical contractor and to have such license renewed, subject to the provisions of this Article, provided:

- (1) At least one listed qualified individual shall be regularly employed by the applicant at each separate place of business to have the specific duty and authority to supervise and direct electrical contracting done by or in the name of the licensee;
- (2) An application is filed with the Board which contains a statement of ownership, states the names and official positions of all employees who are listed qualified individuals and provides such other information as the Board may reasonably require;

- (3) The applicant, through an authorized officer or owner, shall agree in writing to report to the Board within five days any additions to or loss of the employment of listed qualified individuals; and
- (4) The applicant furnishes, upon the initial application for a license, a bonding ability statement completed by a bonding company licensed to do business in North Carolina, verifying the applicant's ability to furnish performance bonds for electrical contracting projects having a value in excess of ~~twenty five thousand dollars (\$25,000)~~ the project value limit for a limited license established pursuant to G.S. 87-43.3 for the intermediate license classification and in excess of ~~seventy five thousand dollars (\$75,000)~~ the project value limit for an intermediate license established pursuant to G.S. 87-43.3 for the unlimited license classification. In lieu of furnishing the bonding ability statement, the applicant may submit for evaluation and specific approval of the Board other information certifying the adequacy of the applicant's financial ability to engage in projects of the license classification applied for. The bonding ability statement or other financial information must be submitted in the same name as the license to be issued. If the firm for which a license application is filed is owned by a sole proprietor, the bonding ability statement or other financial information may be furnished in either the firm name or the name of the proprietor. However, if the application is submitted in the name of a sole proprietor, the applicant shall submit information verifying that the person in whose name the application is made is in fact the sole proprietor of the firm.
- (5) Repealed by Session Laws 1989, c. 709, s. 5."
