GENERAL ASSEMBLY OF NORTH CAROLINA SESSION 2013

Η

D

HOUSE DRH70033-MG-13B (10/26)

Short Title:	Require Pulse Oximetry Newborn Screening.	(Public)
Sponsors:	Representatives Fulghum, Hollo, Stam, and Horn (Primary Sponsors).	
Referred to:		

1	A BILL TO BE ENTITLED			
2	AN ACT TO EXPAND THE NEWBORN SCREENING PROGRAM ESTABLISHED BY			
3	THE DEPARTMENT OF HEALTH AND HUMAN SERVICES TO INCLUDE			
4	NEWBORN SCREENING FOR CONGENITAL HEART DISEASE UTILIZING PULSE			
5	OXIMETRY, AS RECOMMENDED BY THE NORTH CAROLINA CHILD FATALITY			
6	TASK FORCE.			
7	Whereas, in 2010, approximately 122,300 babies were born to North Carolina			
8	residents; and			
9	Whereas, congenital heart defects account for 24% of infant deaths due to birth			
10	defects; and			
11	Whereas, more than 1,400 babies with congenital heart defects do not live to			
12	celebrate their first birthday; and			
13	Whereas, in the United States, approximately 4,800 babies born every year have one			
14	of seven critical congenital heart defects (CCHDs); and			
15	Whereas, infants with one of these CCHDs are at significant risk for death or			
16	disability if not diagnosed and treated soon after birth; and			
17	Whereas, newborn screening using pulse oximetry, which is a noninvasive test to			
18	determine the amount of oxygen in the blood and the pulse rate, can identify some CCHDs			
19	before infants even show signs of the condition; and			
20	Whereas, once identified, infants with CCHDs can receive specialized care and			
21	treatment by a cardiologist that could prevent death or disability early in life; and			
22	Whereas, in September 2011, the Secretary of the United States Department of			
23	Health and Human Services approved adding screening for CCHDs to the Recommended			
24	Uniform Screening Panel upon the recommendation of the Secretary's Advisory Committee on			
25	Heritable Disorders in Newborns and Children; Now, therefore,			
26	The General Assembly of North Carolina enacts:			
27	SECTION 1. G.S. 130A-125 reads as rewritten:			
28	"§ 130A-125. Screening of newborns for metabolic and other hereditary and congenital			
29	disorders.			
30	(a) The Department shall establish and administer a Newborn Screening Program. The			
31	program shall include, but shall not be limited to:			
32	(1) Development and distribution of educational materials regarding the			
33	availability and benefits of newborn screening.			
34	(2) Provision of laboratory testing.			

	General Ass	sembly of North Carolina Session 2013			
1	(1	3) Development of follow-up protocols to assure early treatment for identified			
2		children, and the provision of genetic counseling and support services for the			
3		families of identified children.			
Ļ	(4	4) Provision of necessary dietary treatment products or medications for			
		identified children as medically indicated and when not otherwise available.			
)	(3	5) For each newborn, provision of physiological screening in each ear for the			
		presence of permanent hearing loss.			
	()	5) For each newborn, provision of pulse oximetry screening to detect			
		congenital heart defects.			
	(b) T	he Commission shall adopt rules necessary to implement the Newborn Screening			
	Program. Th	e rules shall include, but shall not be limited to, the conditions for which screening			
	shall be requ	ired, provided that screening shall not be required when the parents or the guardian			
	of the infant object to such screening. If the parents or guardian object to the screening, the				
	objection sh	all be presented in writing to the physician or other person responsible for			
	administering the test, who shall place the written objection in the infant's medical record.				
	(b1) T	he Commission for Public Health shall adopt temporary and permanent rules to			
	include new	born hearing screening and pulse oximetry screening in the Newborn Screening			
	Program esta	ablished under this section.			
	<u>(b2)</u> <u>T</u>	he Commission's rules for pulse oximetry screening shall address at least all of the			
	following:				
	<u>(</u>	1) Follow-up protocols to ensure early treatment for newborn infants diagnosed			
		with a congenital heart defect, including by means of telemedicine. As used			
		in this subsection, "telemedicine" is the use of two-way, real-time interactive			
		audio and video between places of lesser and greater medical capability or			
		expertise to provide and support health care when distance separates			
		participants who are in different geographical locations.			
	<u>(</u>	2) <u>A system for tracking both the process and outcomes of newborn screening</u>			
		utilizing pulse oximetry, with linkage to the Birth Defects Monitoring			
		Program established pursuant to G.S. 130A-131.16.			
		A fee of nineteen dollars (\$19.00) applies to a laboratory test performed by the State			
	Laboratory of Public Health pursuant to this section. The fee for a laboratory test is a				
	departmental receipt of the Department and shall be used to offset the cost of the Newborn				
3	Screening Pr	0			
1	S	ECTION 2. This act is effective when it becomes law.
