

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2013

H

1

HOUSE BILL 710

Short Title: Water Utility Recovery. (Public)

Sponsors: Representative Hager (Primary Sponsor).

For a complete list of Sponsors, refer to the North Carolina General Assembly Web Site.

Referred to: Public Utilities and Energy, if favorable, Finance.

April 11, 2013

1 A BILL TO BE ENTITLED
2 AN ACT TO PERMIT WATER UTILITIES TO ADJUST RATES FOR CHANGES IN
3 COSTS BASED ON THIRD-PARTY RATES AND TO AUTHORIZE THE UTILITIES
4 COMMISSION TO APPROVE A RATE ADJUSTMENT MECHANISM FOR WATER
5 AND SEWER AUTHORITIES TO RECOVER COSTS FOR WATER AND SEWER
6 SYSTEM IMPROVEMENTS.

7 The General Assembly of North Carolina enacts:

8 SECTION 1. Chapter 62 of the General Statutes is amended by adding a new
9 section to read:

10 "**§ 62-133.11. Rate adjustment for changes in costs based on third-party rates.**

11 (a) The Commission shall permit a water or sewer public utility to adjust its rates
12 approved pursuant to G.S. 62-133 to reflect changes in costs based solely upon changes in the
13 rates imposed by third-party suppliers of purchased water or sewer service, including
14 applicable taxes and fees.

15 (b) Any water or sewer public utility seeking to adjust its rates pursuant to this section
16 shall file a verified petition in such form and detail as the Commission may require.

17 (c) The Commission shall issue an order approving, denying, or approving with
18 modifications a rate adjustment requested pursuant to this section within 60 days of the date of
19 filing of a completed petition, unless that time is for good cause extended up to a maximum of
20 90 days."

21 SECTION 2. Chapter 62 of the General Statutes is amended by adding a new
22 section to read:

23 "**§ 62-133.12. Rate adjustment mechanism based on investment in repair, improvement,**
24 **and replacement of water and sewer facilities.**

25 (a) The Commission may approve a rate adjustment mechanism in a general rate
26 proceeding pursuant to G.S. 62-133 to allow a water or sewer public utility to recover through a
27 system improvement charge the incremental depreciation expense and capital costs associated
28 with the utility's reasonable and prudently incurred investment in eligible water and sewer
29 system improvements. The Commission shall approve a rate adjustment mechanism authorized
30 pursuant this section only upon a finding that the mechanism is in the public interest. The
31 frequency and manner of rate adjustments under the mechanism shall be as prescribed by the
32 Commission.

33 (b) For purposes of this section, "eligible water system improvements" or "eligible
34 sewer system improvements" shall include only those improvements found necessary by the

1 Commission to enable the water or sewer utility to provide safe, reliable, and efficient service
2 in accordance with applicable water quality and effluent standards.

3 (c) For purposes of this section, "eligible water system improvements" means:

4 (1) Distribution system mains, valves, utility service lines (including meter
5 boxes and appurtenances), meters, and hydrants installed as in-kind
6 replacements.

7 (2) Main extensions installed to eliminate dead ends and to implement solutions
8 to regional water supply in order to comply with primary and, upon specific
9 Commission approval, secondary drinking water standards.

10 (3) Equipment and infrastructure installed to comply with primary drinking
11 water standards.

12 (4) Equipment and infrastructure installed at the direction of the Commission to
13 comply with secondary drinking water standards.

14 (5) Unreimbursed costs of relocating facilities due to highway projects.

15 (e) The Commission shall provide for audit and reconciliation procedures, including
16 measures for refunds of any over-collections under the system improvement charge with
17 interest pursuant to G.S. 62-130(e).

18 (f) The Commission may eliminate or modify any rate adjustment mechanism
19 authorized pursuant to this section upon a finding that it is not in the public interest.

20 (g) Cumulative system improvement charges for a water or sewer utility pursuant to a
21 rate adjustment mechanism approved by the Commission under this section may not exceed
22 five percent (5%) of the total annual service revenues approved by the Commission in the water
23 or sewer utility's last general rate case."

24 **SECTION 3.** This act is effective when it becomes law.
