11 development activities at a site, including, but not limited to, regulation of the following
12 matters: well construction, siting, and closure requirements; hydraulic fracturing treatments,
13 including subsurface injection of fluids for that purpose; water quality, including stormwater
14 control, and management of water resources; management of waste; and regulation of air
15 emissions. The Department of Environment and Natural Resources shall seek any approvals
16 necessary from the United States Environmental Protection Agency for a coordinated

 27 Commission for Public Health terminate.

29 **PART III. MODIFY MEC'S AUTHORITY FOR SETTING LIMITS ON** 30 **PRODUCTION**

31 **SECTION 3.** G.S. 113-394 reads as rewritten:

32 "**§ 113-394. Limitations on production; allocating and prorating "allowables."**

33 (a) ~~Whenever the total amount of oil, including condensate, which all the pools in the~~
 34 ~~State can produce, exceeds the amount reasonably required to meet the reasonable market~~
 35 ~~demand for oil, including condensate, produced in this State, then the~~The Commission shall
 36 may limit the total amount of oil, including condensate, which may be produced in the State by
 37 fixing an amount which shall be designated "allowable" for this State, ~~which will not exceed~~
 38 ~~the reasonable market demand for oil, including condensate, produced in this the State.~~ The
 39 Commission ~~shall~~may then allocate or distribute the "allowable" for the State among the pools
 40 on a reasonable basis and in such manner as to avoid undue discrimination, and so that waste
 41 will be prevented. In allocating the "allowable" for the State, and in fixing "allowables" for
 42 pools producing oil or hydrocarbons forming condensate, or both oil and such hydrocarbons,
 43 the Commission ~~shall~~may take into account the producing conditions and other relevant facts
 44 with respect to such pools, including the separate needs for oil, gas and condensate, and ~~shall~~
 45 may formulate rules setting forth standards or a program for the distribution of the "allowable"
 46 for the State, and ~~shall~~ distribute the "allowable" for the State in accordance with such
 47 standards or program, and where conditions in one pool or area are substantially similar to
 48 those in another pool or area, then the same standards or programs shall be applied to such
 49 pools and areas so that as far as practicable a uniform program will be followed; provided,
 50 however, the Commission shall allow the production of a sufficient amount of natural gas from
 51 any pool to supply adequately the reasonable market demand for such gas for light and fuel

1 purposes if such production can be obtained without waste, and the condensate "allowable" for
2 such pool shall not be less than the total amount of condensate produced or obtained in
3 connection with the production of the gas "allowable" for light and fuel purposes, and provided
4 further that, if the amount allocated to pool as its share of the "allowable" for the State is in
5 excess of the amount which the pool should produce to prevent waste, then the Commission
6 shall fix the "allowable" for the pool so that waste will be prevented.

7 (b) ~~The Commission shall not be required to determine the reasonable market demand~~
8 ~~applicable to any single pool except in relation to all pools producing oil of similar kind and~~
9 ~~quality and in relation to the demand applicable to the State, and in relation to the effect of~~
10 ~~limiting the production of pools in the State.~~ In allocating "allowables" to pools, the
11 Commission shall not be bound by nominations or desires of purchasers to purchase oil from
12 particular fields or areas, and the Commission shall allocate the "allowable" for the State in
13 such manner as will prevent undue discrimination against any pool or area in favor of another
14 or others which would result from selective buying or nominating by purchasers of oil, as such
15 term "selective buying or nominating" is understood in the oil business.

16 (c) Whenever the Commission limits the total amount of oil or gas which may be
17 produced in any pool in this State to an amount less than that which the pool could produce if
18 no restrictions were imposed (which limitation may be imposed either incidental to, or without,
19 a limitation of the total amount of oil or gas which may be produced in the State), the
20 Commission shall prorate or distribute the "allowable" production among the producers in the
21 pool on a reasonable basis, and so that each producer will have the opportunity to produce or
22 receive his just and equitable share, as such share is set forth in subsection G.S. 113-392(d),
23 subject to the reasonable necessities for the prevention of waste.

24 (d) ~~Whenever the total amount of gas which can be produced from any pool in this~~
25 ~~State exceeds the amount of gas reasonably required to meet the reasonable market demand~~
26 ~~therefrom, the Commission shall limit~~ limits the total amount of gas which may be produced
27 ~~from such pool. Thea pool,~~ the Commission shall then allocate or distribute the allowable
28 production among the developed areas in the pool on a reasonable basis, so that each producer
29 will have the opportunity to produce his just and equitable share, as such share is set forth in
30 subsection G.S. 113-392(d), whether the restriction for the pool as a whole is accomplished by
31 order or by the automatic operation of the prohibitory provisions of this law. As far as
32 applicable, the provisions of subsection (a) of this section shall be followed in allocating any
33 "allowable" of gas for the State.

34 (e) After the effective date of any rule or order of the Commission fixing the
35 "allowable" production of oil or gas, or both, or condensate, no person shall produce from any
36 well, lease, or property more than the "allowable" production which is fixed, nor shall such
37 amount be produced in a different manner than that which may be authorized."
38

39 **PART IV. REPEAL OF LANDMEN REGISTRY**

40 **SECTION 4.** G.S. 113-425 is repealed.

33 **"§ 105-187.72. Tax on severance of energy minerals.**

34 (a) Purpose. – An excise tax, to be termed a "severance tax," is levied on the privilege
35 of engaging in the severance of energy minerals from the soil or water of this State. The
36 purpose of the tax is to provide revenue to administer and enforce the provisions of this Article,
37 to administer the State's natural gas and oil reclamation regulatory program, to meet the
38 environmental and resource management needs of this State, and to reclaim land affected by
39 exploration for, drilling for, and production of natural gas and oil. The severance tax is imposed
40 upon all energy minerals severed when sold or consumed, whichever occurs first.

41 (b) Calculation of Tax. – The amount of the severance tax shall be determined as
42 follows:

- 43 (1) Condensates. – The applicable percentage rate of tax multiplied by the
44 market value per each barrel of oil equivalents (BOE) of the condensates
45 sold.
- 46 (2) Gas. – The applicable percentage rate of tax multiplied by the market value
47 per each MCF of the gas sold.
- 48 (3) Oil. – The applicable percentage rate of tax multiplied by the market value
49 per each standard barrel of the oil sold.

50 (c) Rate of Tax, Condensates. – The applicable percentage rate of the severance tax on
51 condensates shall be determined in accordance with the following schedule:

- 1 (1) For condensates sold from a well in calendar year 2015, 2016, or 2017, the
2 rate of tax shall be one percent (1%).
- 3 (2) For condensates sold from a well in calendar year 2018 or 2019, the rate of
4 tax shall be two and one-half percent (2.5%).
- 5 (3) For condensates sold from a well in calendar year 2020 and thereafter, the
6 rate of tax shall be six percent (6%).
- 7 (d) Rate of Tax, Gas. – The applicable percentage rate of the severance tax on gas shall
8 be calculated for each sale of gas. The rate will be the sales price of each MCF divided by 100
9 stated as a percentage, within the following limitations:
- 10 (1) For gas sold from a well in calendar year 2015, 2016, or 2017, the rate of tax
11 shall not exceed one percent (1%).
- 12 (2) For gas sold from a well in calendar year 2018 or 2019, the rate of tax shall
13 not exceed two and one-half percent (2.5%).
- 14 (3) For gas sold from a well in calendar year 2020 and thereafter, the rate of tax
15 shall be at least two and one-half percent (2.5%) and shall not exceed six
16 percent (6%).
- 17 (e) Rate of Tax, Oil. – The applicable percentage rate of the severance tax on
18 condensates shall be determined in accordance with the following schedule:
- 19 (1) For oil sold from a well in calendar year 2015, 2016, or 2017, the rate of tax
20 shall be one percent (1%).
- 21 (2) For oil sold from a well in calendar year 2018 or 2019, the rate of tax shall
22 be two and one-half percent (2.5%).
- 23 (3) For oil sold from a well in calendar year 2020 and thereafter, the rate of tax
24 shall be six percent (6%).
- 25 (f) Exemption. – The severance of energy minerals from land or water in this State
26 owned legally or beneficially by the producer, which energy minerals are used on the land from
27 which they are taken by the producer as part of the improvement of or use in the producer's
28 homestead is exempt from the severance tax. To claim the exemption allowed by this
29 subsection, the taxpayer shall provide any information required by the Secretary. Every
30 taxpayer claiming the exemption under this subsection shall maintain and make available for
31 inspection by the Secretary any records the Secretary considers necessary to determine and
32 verify the amount of the exemption or special rate of tax to which the taxpayer is entitled. The
33 burden of proving eligibility for the exemption and the amount of the exemption shall rest upon
34 the taxpayer, and no exemption shall be allowed to a taxpayer that fails to maintain adequate
35 records or to make them available for inspection.
- 36 **"§ 105-187.73. Market value.**
- 37 (a) Market Value. – For the calculation of the severance tax, market value is the
38 following:
- 39 (1) Condensates. – The market value of condensates is the total actual gross
40 price in U.S. dollars paid by the first purchaser of condensates at the mouth
41 of the well from which it was produced.
- 42 (2) Gas. – The market value of gas is the total actual gross price in U.S. dollars
43 paid by the first purchaser at the mouth of the well from which the gas is
44 produced as adjusted in this section. The market value of gas at the mouth of
45 the well shall be determined by subtracting the producer's actual marketing
46 costs from the producer's total gross cash receipts from the sale of the gas.
- 47 (3) Oil. – The market value of oil is the total actual gross price in U.S. dollars
48 paid by the first purchaser of the oil at the mouth of the well from which it
49 was produced.
- 50 (b) Marketing Costs. – Marketing costs are the costs incurred by the producer to get the
51 gas from the mouth of the well to the market. Marketing costs do not include costs for which a

1 producer receives a cost reimbursement from the gas purchaser. Marketing costs do not include
2 costs incurred in producing the gas, costs incurred in normal lease separation of the oil or
3 condensate from the gas, or insurance premiums on the marketing facility. Marketing costs
4 include all of the following:

- 5 (1) Costs for compressing the gas sold.
- 6 (2) Costs for dehydrating the gas sold.
- 7 (3) Costs for sweetening the gas sold.
- 8 (4) Costs for delivering the gas to the purchaser.
- 9 (5) Costs for gathering the gas sold.

10 (c) Records. – In order to be eligible to subtract the marketing costs from the producer's
11 gross receipts for purposes of calculating the market value of gas, the producer shall provide
12 any information required by the Secretary. Every producer subtracting the marketing costs as
13 permitted under this section shall maintain and make available for inspection by the Secretary
14 of Revenue any records the Secretary considers necessary to determine and verify the amount
15 of the marketing costs the producer is eligible to subtract. The burden of proving eligibility for
16 subtracting the marketing costs and the amount of the marketing costs to be subtracted shall
17 rest upon the producer, and no subtraction of marketing costs shall be allowed to a producer
18 that fails to maintain adequate records or to make them available for inspection.

19 **"§ 105-187.74. Returns and payment of tax.**

20 (a) General. – Severance taxes are payable when a return is due. A return is due
21 quarterly or monthly as specified in this section. A return must be filed by the producer of the
22 energy mineral with the Secretary on a form prescribed by the Secretary and in the manner
23 required by the Secretary. A return must be signed by the taxpayer or the taxpayer's agent.

24 (b) Payment. – A producer of energy minerals shall pay the tax for all owners of the
25 energy minerals. The producer shall withhold from any payment due owners the proportionate
26 tax due for remittance to the Secretary.

27 (c) Quarterly. – A taxpayer who is consistently liable for less than one thousand dollars
28 (\$1,000) a month in severance taxes must file a return and pay the taxes due on a quarterly
29 basis. A quarterly return covers a calendar quarter and is due by the last day of the month
30 following the end of the quarter.

31 (d) Monthly. – A taxpayer who is consistently liable for at least one thousand dollars
32 (\$1,000) a month in severances taxes must file a return and pay the taxes due on a monthly
33 basis. A monthly return is due by the 20th day of the month following the calendar month
34 covered by the return.

35 (e) Category. – The Secretary must monitor the amount of severance taxes paid by a
36 taxpayer or estimate the amount of taxes to be paid by a new taxpayer and must direct each
37 taxpayer to pay tax and file returns as required by this section. In determining the amount of
38 taxes due from a taxpayer, the Secretary must consider the total amount due from all places of
39 business owned or operated by the same person as the amount due from that person. A taxpayer
40 must file a return and pay tax in accordance with the Secretary's direction.

41 (f) Information on Return. – The amount of tax due and any other information required
42 by the Secretary must be included on the return. Returns that do not contain the required
43 information will not be accepted. When an unacceptable return is submitted, the Secretary will
44 require a corrected return to be filed. The return must contain the following information
45 concerning energy minerals produced during the month being reported:

- 46 (1) The gross amount of energy minerals produced that are subject to the tax
47 imposed by this Article.
- 48 (2) The leases from which the energy minerals were produced.
- 49 (3) The names and addresses of the first purchasers of the energy minerals.

50 **"§ 105-187.75. Bond or letter of credit required.**

1 A producer must file with the Secretary a bond or an irrevocable letter of credit if the
2 producer fails to file a return required under this Article. A bond or an irrevocable letter of
3 credit must be conditioned upon compliance with the requirements of this Article, be payable to
4 the State, and be in the form required by the Secretary. The amount of the bond or irrevocable
5 letter of credit is two times the applicant's average expected monthly tax liability under this
6 Article, as determined by the Secretary. When notified to do so by the Secretary, a person that
7 is required to file a bond or an irrevocable letter of credit must file the bond or irrevocable letter
8 of credit in the amount required by the Secretary within 30 days after receiving the notice from
9 the Secretary.

10 **"§ 105-187.76. Allocation of revenue.**

11 The Secretary shall allocate the tax levied in this Article as follows:

- 12 (1) Twenty-five percent (25%), not to exceed one million dollars (\$1,000,000)
13 per year, to the Department of Environment and Natural Resources for
14 purposes of administering its duties and responsibilities under Article 27 of
15 Chapter 113 of the General Statutes.
- 16 (2) After allocation pursuant to subsection (a) of this section, the Secretary shall
17 allocate:
- 18 a. Fifty percent (50%) to the General Fund.
- 19 b. Fifty percent (50%) to the Onshore Energy Management Fund until
20 the Fund reaches ten million dollars (\$10,000,000). The Onshore
21 Energy Management Fund is an interest-bearing special revenue fund
22 to be established within the State treasury. This fund shall be used
23 only for emergency preparation, emergency response, emergency
24 environmental protection, or mitigation associated with a release of
25 liquid hydrocarbons or associated fluids directly related to onshore
26 energy exploration, development, production, or transmission. Once
27 the fund balance reaches the amount of ten million dollars
28 (\$10,000,000), funds over that amount shall be allocated to the
29 General Fund. If monies are withdrawn from the Onshore Energy
30 Emergency Fund to carry out the provisions in this sub-subdivision,
31 revenues generated by the tax levied in this Article shall be deposited
32 in the Onshore Energy Emergency Fund until a total of ten million
33 dollars (\$10,000,000) is reestablished.

34 **"§ 105-187.77. Liability of producer for tax.**

35 The tax imposed by this Article is the primary liability of the producer except as provided
36 in this section. A first purchaser may not take delivery of energy minerals from a producer
37 unless the producer furnishes the purchaser with a taxpayer identification number assigned by
38 the Secretary. A first purchaser failing to secure the producer's taxpayer number, either from
39 the producer or the Secretary, will be liable for any tax, penalty, and interest due on the energy
40 minerals purchased from the producer.

41 **"§ 105-187.78. Royalty owner's records.**

42 The owner of a royalty interest shall keep both of the following:

- 43 (1) A record of all money received as royalty from each producing leasehold in
44 the State.
- 45 (2) A copy of all settlement sheets furnished by a purchaser or operator or other
46 statement showing the amount of energy minerals for which a royalty was
47 received and the amount of severance tax deducted.

48 **"§ 105-187.79. Permits suspended for failure to report.**

49 If an entity fails to file any report or return or to pay any tax or fee required by this Article
50 for 90 days after it is due, the Secretary shall inform the Secretary of Environment and Natural
51 Resources of this failure. The Secretary of Environment and Natural Resources shall suspend

1 permits for oil and gas exploration using horizontal drilling and hydraulic fracturing under
2 G.S. 113-395 of any entity that fails to file a return under this Article. The Secretary of
3 Environment and Natural Resources shall immediately notify by mail an entity of a suspension
4 under this section.

5 **"§ 105-187.80. No local taxation.**

6 A county, city, town, or municipality of the State of North Carolina shall not establish, levy,
7 impose, or collect, as a condition of doing business or otherwise, any tax, fee, license, or charge
8 whatsoever, directly or indirectly, on or with respect to the severing, production, treating,
9 processing, ownership, sale, storage, purchase, marketing, or transportation on any energy
10 minerals produced in the State of North Carolina and on which severance taxes are due or have
11 been paid to the State of North Carolina, or upon the business of severing, producing, treating,
12 processing, owning, selling, buying, storing, marketing, or transporting such energy minerals,
13 or upon the ownership, operation, or maintenance of plants, facilities, machinery, pipelines,
14 gathering lines, or any equipment whatsoever, which are, or may be, necessary or convenient to
15 the severing, production, treating, processing, ownership, storage, sale, purchase, marketing, or
16 transportation of such energy minerals."

17 **SECTION 5.(b)** G.S. 105-259(b) is amended by adding a new subdivision to read:

18 "(44) To furnish to the Department of Environment and Natural Resources the
19 name, address, tax year end, and account and identification numbers of an
20 entity liable for severance tax to enable the Secretary of Environment and
21 Natural Resources to notify the entity that the Department of Environment
22 and Natural Resources shall suspend permits of the entity for oil and gas
