- (d) For the 2024-25 fiscal year the State Board of Education shall transfer the At-Risk Student Services/Alternative Schools allotment into the DSSF allotment and allocate these funds to local school administrative units under a formula that:
  - (1) Expands the allowable uses of the DSSF allotment to incorporate activities allowed under the current At-Risk allotment; and
  - (2) Provides that no local administrative unit receives a decrease in combined funding.

Reallocated At-Risk funding must be counted as an independent supplement to existing DSSF funds."

#### NORTH CAROLINA VIRTUAL PUBLIC SCHOOL FUNDING

**SECTION 7.8.** Of the funds appropriated in this act to the Department of Public Instruction, the State Board of Education shall use the sum of three million dollars (\$3,000,000) in the 2024-2025 fiscal year to offset the costs for local school administrative units and charter schools to participate in North Carolina Virtual Public School (NCVPS).

#### TEACHER ASSISTANTS

**SECTION 7.9.** It is the intent of the General Assembly to incrementally increase funding for the Teacher Assistants allotment and to simplify the formula for allotting funding in order to provide funding for one teacher assistant for every 27 kindergarten year through third grade students by fiscal year 2029-30. Teacher Assistant funding shall be allotted to a local school administrative unit based on a teacher assistant-to-kindergarten through third grade student ratio of 1:34 in fiscal year 2024-25.

#### SUPPLEMENTAL FUNDING IN LOW-WEALTH COUNTIES

**SECTION 7.10.** G.S. 115C-472.17 reads as rewritten:

#### "§ 115C-472.17. Supplemental funding in low-wealth counties.

1 administrative unit, the average daily membership of that county includes all 2 students who reside within the county and attend that local school 3 administrative unit. 4 County-adjusted property tax base. – Computed as follows: (6) 5 Subtract the present-use value of agricultural land, horticultural land, a. 6 and forestland in the county, as defined in G.S. 105-277.2, from the 7 total assessed real property valuation of the county. 8 b. Adjust the resulting amount by multiplying by a weighted average of 9 the three most recent annual sales assessment ratio studies. 10 c. Add the three weighted percentages to derive the county wealth as a 33 percentage of the State average wealth. 34 (9) Effective county tax rate. – The actual county tax rate multiplied by a weighted 35 average of the three most recent annual sales assessment ratio studies. Effective State average tax rate. – The average of effective county tax rates 36 (10)37 for all counties. 38 (11)Local current expense funds. – The most recent county current expense 39 appropriations to public schools, as reported by local boards of education in 40 the audit report filed with the Secretary of the Local Government Commission 41 pursuant to G.S. 115C-447. 42 Per capita income. – The average for the most recent three years for which (12)43 data are available of the per capita income according to the most recent report 44 of the United States Department of Commerce, Bureau of Economic Analysis, 45 including any reported modifications for prior years as outlined in the most 46 recent report. 47 Sales assessment ratio studies. – Sales assessment ratio studies performed by (13)48 the Department of Revenue under G.S. 105-289(h). 49 State average adjusted property tax base per square mile. – The sum of the (14)50 county-adjusted property tax bases for all counties divided by the number of 51 square miles of land area in the State.

- (15) State average current expense appropriations per student. The most recent State total of county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.
- (16) Supplant. To decrease local per student current expense appropriations from one fiscal year to the next fiscal year.
- (17) Weighted average of the three most recent annual sales assessment ratio studies. The weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.
- (c) Eligibility for Funds. Except as provided in subsection (g) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).
- (d) Allocation of Funds. Except as provided in subsection (f) of this section, the amount received per average daily membership for a county shall be the difference between the State average current expense appropriations per student and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county's wealth as a percentage of State average wealth by the State average current expense appropriations per student. The funds for the local school administrative units located in whole or in part in the county shall be allocated to each local school administrative unit located in whole or in part in the county based on the average daily membership of the county's students in the school units. If the funds appropriated for supplemental funding are not adequate to fund the formula fully, each local school administrative unit shall receive a pro rata share of the funds appropriated for supplemental funding.
- (e) Formula for Distribution of Supplemental Funding Pursuant to this Section Only. The formula in this section is solely a basis for distribution of supplemental funding for low-wealth counties and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for low-wealth counties. It is the intent of the General Assembly to incrementally increase appropriations for the low-wealth allotment to provide eligible counties supplemental funding equal to one hundred ten percent (110%) of the statewide local revenue per student by fiscal year 2029-30. The State Board of Education shall adjust the formula to ensure each local school administrative unit receives a pro rata share of the additional funds appropriated for the low-wealth allotment in this act for supplemental funding.
- (f) Minimum Effort Required. A county shall receive full funding under this section if the county (i) maintains an effective county tax rate that is at least one hundred percent (100%) of the effective State average tax rate in the most recent year for which data are available or (ii) maintains a county appropriation per student to the school local current expense fund of at least one hundred percent (100%) of the current expense appropriations per student to the school local current expense fund that the county could provide given the county's wealth and an average effort to fund public schools. A county that maintains a county appropriation per student to the school local current expense fund of less than one hundred percent (100%) of the current expense

appropriations per student to the school local current expense fund that the county could provide given the county's wealth and an average effort to fund public schools shall receive funding under this section at the same percentage that the county's appropriation per student to the school local current expense fund is of the current expense appropriations per student to the school local current expense fund that the county could provide given the county's wealth and an average effort to fund public schools.

- (g) Nonsupplant Requirement. A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. The State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if all of the following criteria apply:
  - (1) The current expense appropriations per student of the county for the current year is less than ninety-five percent (95%) of the average of local current expense appropriations per student for the three prior fiscal years.
  - (2) The county cannot show (i) that it has remedied the deficiency in funding or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement the requirements of this subsection.

- (h) Counties Containing a Base of the Armed Forces. Notwithstanding any other provision of this section, for the 2024-2025 and 2025-2026 fiscal years, counties containing a base of the Armed Forces of the United States that have an average daily membership of more than 17,000 students shall receive whichever is the higher amount in each fiscal year as follows: either the amount of supplemental funding the county received as a low-wealth county in the 2012-2013 fiscal year or the amount of supplemental funding the county is eligible to receive as a low-wealth county pursuant to the formula for distribution of supplemental funding under the other provisions of this section.
- (i) Funds for EVAAS Data. Notwithstanding the requirements of subsection (a) of this section, local school administrative units may utilize funds allocated under this section to purchase services that allow for extraction of data from the Education Value-Added Assessment System (EVAAS).
- (j) Reports. The State Board of Education shall report to the Fiscal Research Division prior to May 15 of each year if it determines that counties have supplanted funds.
- (k) Department of Revenue Reports. The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present use value of agricultural land, horticultural land, and forestland, as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property."

**SECTION 40.6.(f)** Pursuant to the provisions of part (e) of this section, no more than four hundred fifty million dollars (\$450,000,000) of bonds shall be issued in Fiscal Year 2024-25, and no more than five hundred million dollars (\$500,000,000) shall be issued in Fiscal Year 2025-26 to ensure that debt service does not increase above the cost incurred in Fiscal Year 2024-25.

- (2) Special Allocation Provisions. In determining the use of the proceeds of public improvement bonds and notes, including premium thereon, if any, set forth in subdivision (1) of this subsection, the following special allocation provisions apply:
  - a. The proceeds of public improvement bonds and notes, including premium thereon, if any, for public instruction for public schools capital assistance, as provided in subdivision (1) of this subsection, shall be allocated as follows:
    - 1. Five hundred seventy-five million (\$575,000,00) of such proceeds shall be allocated equally to each local education agency (LEA). Each LEA shall receive a base payment of five million dollars (\$5,000,000).
    - 2. One billion nine hundred twenty-five million (\$1,925,000,000) of such proceeds shall be allocated among local school administrative units on the basis of average daily membership for Fiscal Year 2023 where the numerator is average daily membership for the local administrative unit and the denominator is the total average daily membership for the state for FY 2023.
    - 3. Any county receiving bond proceeds allocated shall provide local matching funds from county funds, other non-State funds, or a combination of these sources for such proceeds, unless they are a county designated as a development tier one area. The amount of matching funds shall be (i) one dollar (\$1.00) of local matching funds for every two dollars (\$2.00) of such proceeds for a local school administrative unit located in a county that is a development tier two area, as defined in G.S. 143B437.08, and (iii) one dollar (\$1.00) of local matching funds for every one dollar (\$1.00) of such proceeds for a local school administrative unit located in a county that is a development tier three area, as defined in G.S. 143B437.08. The match requirement may be satisfied by non-State expenditures for public school facilities made on or after January 1, 2021. If a debt has been incurred since January 1, 2021, for the general purpose of public school facilities, then the face amount of the debt shall be considered as a non-State expenditure for public school facilities for the purpose of the match. No other expenditures made or debts incurred before January 1, 2021, may be used to satisfy the match requirement. As counties satisfy the match requirements of this subsection, they shall document the extent to which they have done so in periodic reports to the State Board of Education. These reports shall include any information and documentation required by the State Board of Education. The State Board of Education shall certify to the State Treasurer from time to time the extent to which the match requirements of this subsection have been met with respect to each county. Bond proceeds shall be distributed for expenditure only as, and to the extent, the matching requirement of this section are satisfied, as certified by the State Board of Education. The State Board of Education shall also require counties to report annually on the impact of

funds provided under this act on the property tax rate for that year. These reports shall be public documents and shall be furnished to any citizen upon request. If the State Board of Education determines that a county has not met the matching requirement set forth in this subdivision by January 1, 2031, the State Board of Education shall certify that fact to the State Treasurer by March 1, 2031. The State Board of Education shall reallocate unmatched funds in the following manner:

- (i) Proceeds allocated under subdivision (1) shall be reallocated to local administrative units receiving funds under subdivision (1) for which the State Board of Educated has certified matching funds.
- (ii) Proceeds allocated under subdivision (2) shall be reallocated to local administrative units receiving funds under subdivision (2) for which the State Board of Educated has certified matching funds.
- 4. A local school administrative unit that receives proceeds under this section shall ensure that such proceeds are used:
  - (i) For acquisition of real property and construction, acquisition, reconstruction, enlargement, renovation, or replacement of buildings and other structures, and
  - (ii) To supplement local funds for public school capital outlay projects and shall not decrease local funds for those projects from one fiscal year to the next fiscal year, as measured by the most recent five year annual average capital outlay expenditure.

# **SECTION 40.6. (g)** Allocation and Tracking of Proceeds. –

(1) Public improvement bonds. – The proceeds of public improvement bonds and notes, including premium thereon, if any, except the proceeds of bonds the issuance of which has been anticipated by bond anticipation notes or the proceeds of refunding bonds or notes, shall be placed by the State Treasurer in a special fund to be designated "Public Improvement Bonds Fund," which may include such appropriate special accounts therein as may be determined by the State Treasurer and shall be disbursed as provided in this section. Monies in the Public Improvement Bonds Fund shall be allocated and expended as provided in this section.

Any additional monies that may be received by means of a grant or grants from the United States of America or any agency or department thereof or from any other source for deposit to the Public Improvement Bonds Fund may be placed in the Public Improvement Bonds Fund or in a separate account or fund and shall be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this section.

Monies in the Public Improvement Bonds Fund or any separate account established under this section may be invested from time to time by the State Treasurer in the same manner permitted for investment of monies belonging to the State or held in the State treasury, except with respect to grant money to the extent otherwise directed by the terms of the grant. Investment earnings, except investment earnings with respect to grant monies to the extent otherwise directed or restricted by the terms of the grant, may be (i) credited to the Public Improvement Bonds Fund, (ii) used to pay debt service on the bonds authorized by this section, (iii) used to satisfy compliance with

applicable requirements of the federal tax law, or (iv) transferred to the General Fund of the State.

The proceeds of public improvement bonds and notes, including premium thereon, if any, may be used with any other monies made available by the General Assembly for funding the projects authorized by this section, including the proceeds of any other State bond issues, whether heretofore made available or that may be made available at the session of the General Assembly at which this section is ratified or any subsequent sessions. The proceeds of public improvement bonds and notes, including premium thereon, if any, shall be expended and disbursed under the direction and supervision of the Director of the Budget. The funds provided by this section shall be disbursed for the purposes provided in this section upon warrants drawn on the State Treasurer by the State Controller, which warrants shall not be drawn until requisition has been approved by the Director of the Budget and which requisition shall be approved only after full compliance with the State Budget Act, Chapter 143C of the General Statutes.

- (2) Tracking of bond proceeds. The State Treasurer or the State Treasurer's designee is hereby authorized and directed to set up a comprehensive system of tracking the proceeds of the public improvement bonds and notes, including premium thereon, if any, to the extent necessary to enable the State Treasurer or the State Treasurer's designee to properly account for the use of such proceeds for compliance with applicable requirements of the federal tax law or otherwise. All recipients of such proceeds shall comply with any tracking system implemented by the State Treasurer or the State Treasurer's designee for this purpose. The State Treasurer may withhold such proceeds from any State agency or department not complying with this subdivision.
- (3) Costs. Allocations to the costs of a capital improvement or undertaking in each case may include allocations to pay the costs set forth in subdivisions c. through g. of subdivision (2) of subsection (d) of this section in connection with the issuance of bonds for that capital improvement or undertaking.

**SECTION 40.6.** (h) Election. – The question of the issuance of the bonds authorized by this section shall be submitted to the qualified voters of the State at a Statewide election to be held November 5, 2024. Any other primary, election, or referendum validly called or scheduled by law at the time the election on the bond question provided for in this subsection is held may be held as called or scheduled. Notice of the election shall be given in the manner and at the times required by G.S. 16333(8). The election and the registration of voters therefore shall be held under and in accordance with the general laws of the State.

Ballots, voting systems authorized by Article 14A of Chapter 163 of the General Statutes, or both may be used in accordance with rules prescribed by the State Board of Elections. The bond question to be used in the ballots or voting systems shall be in substantially the following form:

#### "[]FOR[]AGAINST

If a majority of those voting on the bond question in the election vote in favor of the issuance of the bonds described in the question, those bonds may be issued as provided in this section. If a majority of those voting on a bond question in the election do not vote in favor of the issuance of the bonds described in the question, those bonds shall not be issued. The results of the election shall be canvassed and declared as provided by law for elections for State officers; the results of the

election shall be certified by the State Board of Elections to the Secretary of State in the manner and at the time provided by the general election laws of the State.

#### **SECTION 40.6. (i)** Issuance of Bonds and Notes. –

- (1) Terms and conditions. Bonds or notes may bear a date or dates, may be serial or term bonds or notes, or any combination thereof, may mature in such amounts and at such time or times, not exceeding 40 years from their date or dates, may be payable at such place or places, either within or without the United States of America, in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts, may bear interest at such rate or rates, which may vary from time to time, and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at such price or prices, including a price less than or greater than the face amount of the bonds or notes, and under such terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.
- (2) Signatures; form and denomination; registration. – Bonds or notes may be issued in certificated or uncertificated form. If issued in certificated form, bonds or notes shall be signed on behalf of the State by the Governor or shall bear the Governor's facsimile signature, shall be signed by the State Treasurer or shall bear the State Treasurer's facsimile signature, and shall bear the Great Seal of the State, or a facsimile of the Seal shall be impressed or imprinted thereon. If bonds or notes bear the facsimile signatures of the Governor and the State Treasurer, the bonds or notes shall also bear a manual signature which may be that of a bond registrar, trustee, paying agent, or designated assistant of the State Treasurer. Should any officer whose signature or facsimile signature appears on bonds or notes cease to be such officer before the delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until delivery. Bonds or notes may bear the facsimile signatures of persons, who at the actual time of the execution of the bonds or notes shall be the proper officers to sign any bond or note, although at the date of the bond or note such persons may not have been such officers. The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as the State Treasurer may determine in conformity with this section.
- (3) Manner of sale; expenses. Subject to the approval by the Council of State as to the manner in which bonds or notes shall be offered for sale, whether at public or private sale, whether within or without the United States, and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase, or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at any rates of interest, which may vary from time to time, and at any prices, including a price less than or greater than the face amount of the bonds or notes, as the State Treasurer may determine. All expenses incurred in the preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

the State for the same, but only in the following circumstances and under the following conditions:

- 1. For anticipating the sale of bonds, the issuance of which the Council of State has approved, if the State Treasurer considers it advisable to postpone the issuance of the bonds;
- 2. For the payment of interest on or any installment of principal of any bonds then outstanding, if there are not sufficient funds in the State treasury with which to pay the interest or installment of principal as they respectively become due;
- 3. For the renewal of any loan evidenced by notes authorized in this section;
- 4. For the purposes authorized in this section; and
- 5. For refunding bonds or notes as authorized in this section.
- b. Funds derived from the sale of bonds or notes may be used in the payment of any bond anticipation notes issued under this section. Funds provided by the General Assembly for the payment of interest on or principal of bonds shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which shall have been used in paying interest on or principal of the bonds.
- (5) Refunding bonds and notes. – By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds and notes pursuant to the provisions of the State Refunding Bond Act for the purpose of refunding bonds or notes issued pursuant to this section. The refunding bonds and notes may be combined with any other issues of State bonds and notes similarly secured. Refunding bonds or notes may be issued at any time prior to the final maturity of the debt obligation to be refunded. The proceeds from the sale of any refunding bonds or notes shall be applied to the immediate payment and retirement of the bonds or notes being refunded or, if not required for the immediate payment of the bonds or notes being refunded, the proceeds shall be deposited in trust to provide for the payment and retirement of the bonds or notes being refunded and to pay any expenses incurred in connection with the refunding. Money in a trust fund may be invested in (i) direct obligations of the United States government, (ii) obligations the principal of and interest on which are guaranteed by the United States government, (iii) obligations of any agency or instrumentality of the United States government if the timely payment of principal and interest on the obligations is unconditionally guaranteed by the United States government, or (iv) certificates of deposit issued by a bank or trust company located in the State if the certificates are secured by a pledge of any of the obligations described in (i), (ii), or (iii) above having an aggregate market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. This section does not limit the duration of any deposit in trust for the retirement of bonds or notes being refunded but that have not matured and are not presently redeemable, or if presently redeemable, have not been called for redemption.
- (6) Tax exemption. Bonds and notes shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, or gift taxes, income taxes on the gain from the transfer of bonds or notes, and franchise taxes. The interest on bonds or notes is not subject to taxation as income.

- (7) Investment eligibility. Bonds and notes are securities in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions, all insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, other financial institutions engaged in business in the State, executors, administrators, trustees, and other fiduciaries. Bonds and notes are hereby made securities which may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may hereafter be authorized by law.
- (8) Faith and credit. The faith and credit and taxing power of the State are hereby pledged for the payment of the principal of and the interest on bonds and notes. The State expressly reserves the right to amend any provision of this section to the extent it does not impair any contractual right of a bond owner.
- (9) Other agreements. The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment contracts, credit and liquidity facilities, interstate swap agreements and other derivative products, and any other related instruments and matters the State Treasurer determines are desirable in connection with issuance, incurrence, carrying, or securing of bonds or notes. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, and bond attorneys to be associated with any bond or note issue under this section as the State Treasurer considers necessary.

**SECTION 40.6.(j)** Variable Rate Demand Bonds and Notes. – In fixing the details of bonds and notes, the State Treasurer may provide that any of the bonds or notes may:

- (1) Be made payable from time to time on demand or tender for purchase by the owner, if a credit facility supports the bonds or notes, unless the State Treasurer specifically determines that a credit facility is not required upon a finding and determination by the State Treasurer that the absence of a credit facility will not materially and adversely affect the financial position of the State and the marketing of the bonds or notes at a reasonable interest cost to the State;
- (2) Be additionally supported by a credit facility;
- (3) Be made subject to redemption or a mandatory tender for purchase prior to maturity;
- (4) Bear interest at a rate or rates that may vary for any period of time, as may be provided in the proceedings providing for the issuance of the bonds or notes, including, without limitation, such variations as may be permitted pursuant to a par formula; and
- (5) Be made the subject of a remarketing agreement whereby an attempt is made to remarket bonds or notes to new purchasers prior to their presentment for payment to the provider of the credit facility or to the State.

If the aggregate principal amount payable by the State under a credit facility is in excess of the aggregate principal amount of bonds or notes secured by the credit facility, whether as a result of the inclusion in the credit facility of a provision for the payment of interest for a limited period of time or the payment of a redemption premium or for any other reason, then the amount of authorized but unissued bonds or notes during the term of such credit facility shall not be less than the amount of such excess, unless the payment of such excess is otherwise provided for by agreement of the State executed by the State Treasurer.

## **SECTION 40.6.(k)** Interpretation of Section. –

- (1) Additional method. The foregoing subsections of this section shall be deemed to provide an additional and alternative method for the doing of the things authorized under it and shall be regarded as supplemental and additional to powers conferred by other laws and shall not be regarded as in derogation of any powers now existing.
- (2) Statutory references. References in this section to specific sections or Chapters of the General Statutes or to specific acts are intended to be references to such sections, Chapters, or acts as they may be amended from time to time by the General Assembly.
- (3) Broad construction. This section, being necessary for the health and welfare of the people of the State, shall be broadly construed to effect the purposes thereof.
- (4) Inconsistent provisions. Insofar as the provisions of this section are inconsistent with the provisions of any general, special, or local laws, or parts thereof, the provisions of this section shall be controlling.
- (5) Severability. If any provision of this section or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the section which can be given effect without the invalid provision or application, and to this end the provisions of this section are declared to be severable.

**SECTION 40.6.**(*l*) This section is effective when it becomes law.
