

§ 147-64.7B. Failure to respond to verification audit.

When the Auditor requests information from any organization, other than a State agency, as part of a verification audit and the organization fails to provide the requested information, the organization shall be treated as if the organization failed to meet any condition precedent, classification, or other similar eligibility or qualifying standard subject to the verification audit. The Auditor shall document the organization's failure to provide the requested information in a public record. (2021-112, s. 4(a).)
